

HORIZONT

XINFO – ISPF-Dialog

XINFO as Shortcut

The following slides show you, how XINFO can be used as a Shortcut in a z/OS environment. We provide a Muster-REXX or rather a EditMakro, which you can adapt and expand to your environment.

If you have any questions please contact info@horizont-it.com

XINFO as "Shortcut"

```

... and XINFO shows you all the jobs, in which the program is used.

Thanks for your attention! Do you have any questions?

The logo for 'HORIZONT' features the word in a bold, sans-serif font. The letter 'O' is highlighted in red, while the other letters are in dark grey. The background is light grey with a large red curved shape on the left and several faint, semi-transparent geometric shapes (squares and circles) scattered around.

HORIZONT
