XINFO – Beta92 EJM

XINFO and IWS for z/OS with Beta92 EJM

The IWS-Interface gives you information about IWS Databases, Current plan, Long term plan and Job history

(see here the separate presentation)

Beta92 EJM is an integrated add-on to schedule activities on distributed systems. These sections provide all specific information:

- Agent definitions and actual connection information
- Events
- Jobs and scripts
- Systems
- Users

Beta92 EJM - Agent

Beta92 EJM - Systems

The screenshot displays the 'EJM - Systems' application interface. On the left, a table lists various systems. On the right, a 'Details' window is open, showing specific information for system B92A. A red rounded rectangle highlights the details window, and a blue callout box with the text 'Detail information' points to it.

Thanks for your attention! Do you have any questions?

The logo for 'HORIZONT' features the word in a bold, sans-serif font. The letter 'O' is highlighted in red, while the other letters are in dark grey. The background is light grey with a large red curved shape on the left and several faint, semi-transparent geometric shapes (squares and circles) scattered around.

HORIZONT
